

# Central Europe Project IntraMED-C2C

Innovation transfer in the medical sector – from clinics to companies

## Goals:

Comparison of the situation between clinics and SMEs in each participating country in line with their specific health care environment and reimbursement system.

Development of tools for access of SMEs to the innovation capability in clinics.

Implementation of these tools.

Transformation of these tools to a transregional and transnational level.

Pilot generation of new products, processes and services.

Implementation of a European wide tool for innovation transfer from clinics to companies.
