

BME

EMT

Biomedical Engineering Knowledge Centre, Budapest University of Technology and Economics

Péter Hanák
hanak@iit.bme.hu

Biomedical engineering

- Biomedical research and development since early 1980s at BME
- Biomedical engineering education since 1994 at BME, in cooperation with Semmelweis Medical University
- Drawback: moderate cooperation among the departments of the Faculty of Electrical Engineering and Informatics, and even less between the Faculties of BME

External activities

- Ambient Assisted Living Joint Programme, initiated by EU Member States
- Strengthening eHealth activities worldwide
- Reform of Hungarian health care system
- Hungarian eVITA National Programme (infocomm support for everyday life, especially for the elderly and handicapped)
 - eVITA National Technology Platform
 - eVITA 2008 Conference and Exhibition
- Hungarian medical equipment industry

BME EMT

- Virtual centre, established on 1 July 2007
- One of the 7 knowledge centres at BME
- Founders:
 - Faculty of Electrical Eng. and Informatics
 - Biomechanical Co-operative Research Centre
 - Faculty of Chemical Eng. and Bioengineering
 - Faculty of Economic and Social Sciences
- Tasks: joint representation, relation building and networking, fund raising, cooperation, awareness activities, dissemination

Activities

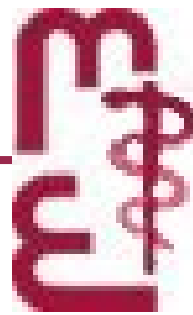

- Participation in eVITA activities
<http://evita.njszt.hu>
- Silvergate 112 project (NKTH grant)
<http://emt.bme.hu/sgate-en>
- BUDAMED '08 Conference
<http://emt.bme.hu/budamed08>
- RCEAS 2008 Conference
<http://rceas.njszt.hu>
- Initiating incubation activities
- Preparation of R&D projects

eVITA Conference and Exhibition

- Europa Congress Center, Budapest
- Apr. 3-5, 2008
- International
- Regional launch of the AAL Joint Programme
- 3-day exhibition
- Session on policies
- Parallel sessions
- Brokerage event
